Thank you for your interest in joining the GREEN SAGE Eco Products family.

Our objectives would be as follows:

1. Establish a relationship with a company that will represent GREEN SAGE Eco Products well and maintain our reputation.
2. Establish a structure that will allow our strategic partner to be successful and to prosper.
3. Commit to providing our full technical and marketing support and resources to our strategic partner.
4. Establish a long-term mutually profitable and beneficial relationship with a quality and ethical partner.

A Distributor is not restricted to a specific territory, and would initially receive a 10% to 45% discount from the prices listed on our website, depending on monthly sales levels. Once a history of product usage has been established, we can discuss additional volume discounts.

You will learn that we are professional and ethical, that we treat all of our customers and partners with respect, and we will work with you in every way to support your success.

GREEN SAGE Eco Products offers cleaning solutions for industrial, commercial and household applications. Our products can be sold:

- through your existing organization,
- in retail stores,
- through personal sales calls,
- local advertising,
- by direct mail, and
- on the internet.

Our unique eco-friendly properties also offer terrific opportunities for PR and editorial mention.

**Depending on your specific interests, experience, and capabilities, here are some of the ways you can reach your financial goals with GREEN SAGE Eco Products:**

1. Current distributors and reps can Add GREEN SAGE Eco Products to an existing line of cleaning products and offer an ecologically safe alternative to your customers.
2. Equipment sales businesses can offer GREEN SAGE Eco Products as a complementary Income generator to your current equipment sales, such as dishwashers, ultrasonic equipment, carpet-cleaning equipment, cleaning supplies like mops and sponges, pool supplies, etc.
3. Cleaning companies, pool service companies, carpet cleaning companies, and others can advertise that they use our products and gain a competitive advantage. You can also sell our products to your own customers for additional income.
4. Car washes, dry cleaners, restaurants, hotels – in fact, almost any business can advertise that they use GREEN SAGE Eco Products, which will attract customers that appreciate your efforts to protect their health and preserve our environment. These customers are loyal and zealous, and they will tell their friends about you.
5. Retail stores, hardware stores, garden stores and convenience stores can add GREEN SAGE Eco Products alongside other cleaning products. Many consumers today are searching for environmentally friendly cleaning products that are convenient and easy to find in their own neighborhood.
6. You can become a master distributor and establish your own independent sales force to sell GREEN SAGE Eco Products for you. They can be commission-based and earn a percentage of their sales, and you will become eligible for deeper discounts based on higher volumes.
7. You can partner with local fund-raising groups of all kinds, both as a profit generator for you and for them; and also as a tremendous PR opportunity to support your local community and to develop new and ongoing sales.

**Contact us with your thoughts, ideas, or questions. We will be happy to help you tailor a program that meets your specific goals and needs.**
